

Headline: One Brightly Cyber and DynaRisk announce global partnership to provide a single turnkey cyber risk solution combining cyber services and tools to the insurance market.

Philadelphia, PA May 16, 2022: DynaRisk, a cyber-insuretech provider of cyber risk management software for consumers and SMEs and One Brightly Cyber, a premier global provider of prebreach, incident response, claims concierge & post breach services today announced the availability of an integrated offering, bringing together cyber services and tools for families and businesses.

DynaRisk and One Brightly Cyber provide a solution unique in the marketplace to assess and manage risk through innovative guidance for personal and commercial users through comprehensive cyber services teamed with risk management tools through a single platform. The solution is simple to use and highly effective at determining risk and providing step by step guidance to improve risk posture and respond quickly to cyber threats or attacks.

The new offering gives the insurance market the ability to generate new revenue streams with a stand-alone risk management product or improve loss ratios on existing indemnity products while improving policy holder engagement and retention.

DynaRisk's Cyber Xpert and Breach Defense products are now integrated within One Brightly Cyber's Portal, giving users a frictionless one-click experience to access cyber risk management tools. One Brightly Cyber's pre and post breach services are now available through DynaRisk to their clients worldwide.

"We are very excited to be working with One Brightly Cyber on this new combined solution. Broker, MGA and Carrier clients are constantly looking for ways to streamline their offerings while delivering improved risk management solutions to reduce loss ratios. Delivering our tools with one-click increases user engagement while further driving risk reduction." said Andrew Martin, CEO at DynaRisk.

"Integrating DynaRisk's best in class cyber tools with OneBrightlyCyber's global cyber protection and resolution services sets a new standard for protecting and responding to the cyber threats and attacks faced by families and businesses today. The introduction of specialized versions of our combined offering for small businesses, healthcare, financial services, legal practices and other verticals mitigates cybers risks and provides innovative and immediate revenue opportunities within the industry." remarked Philip Gow, Managing Partner of OneBrightlyCyber.
